

ENPRESOR

Precision Sorting. Unmatched Support.

Made in USA

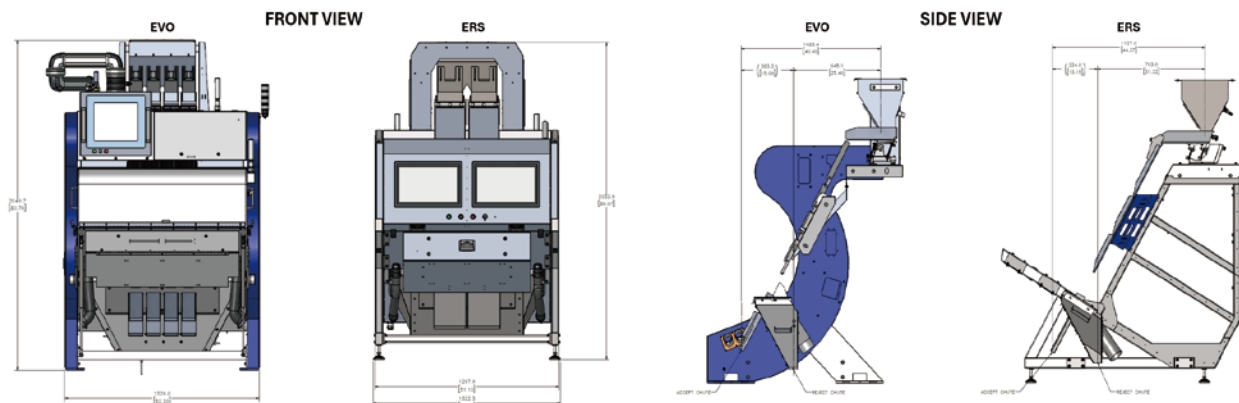

FEATURES

- Auto-Fit Pattern Sorting System (3D-CloudFit) driven by AI
- High-Intensity, Long-Life LED Lighting with Deep Color Resolution
- Upgraded High-Capacity, Stable Feeding System
- 19" Feature-Rich Dual Touchscreen Operating Panels
- Integrated Remote Control and Monitoring with Wireless Connectivity
- Real-Time Data Exchange (OPC)
- Open and Accessible Body Design
- Drop-In replacement for Evolution series
- Redundant Power System

SATAKE

ENPRESOR KEY FEATURES

- **Auto-Fit Pattern Sorting System (3D-CloudFit) driven by AI**
 - Enhanced sensitivity and accuracy. Intelligent sort setup unlocks next-level precision, delivering Superior Product Quality and Higher Yield.
- **Upgraded High-Capacity, Stable Feeding System**
 - Increased Productivity with Higher Throughput.
- **19" Dual Touchscreen Operating Panels**
 - Intuitive Control and Data-Driven Interface for Optimal Performance.
- **Real-Time Data xchange(OPC)**
 - Users gain access to machine state, settings, incoming material quality information and throughput data. This allows Optimized Sorting, Quality Control and Process and Machine Validation Protocols.
- **Open and Accessible Body**
 - Engineered for Easy Maintenance and Quick Servicing.
- **Drop-In replacement**
 - Evolution compatible footprint Significantly Reduces Installation Costs.
